October 25<sup>th</sup>, 2022

Dear Residents,

Council would like to remind you to please be very careful of the items that are being flushed into the sewage system.

We have had another issue with the sewage lift pump with the flushing of a sanitary napkin. It costs about \$100.00 each time it is plugged, but only if the staff is able to unplug it. If they are not able to unplug it, we must purchase a new pump at a cost of between \$10,000.00 and \$15,000.00.
